

# AZNotes Manual

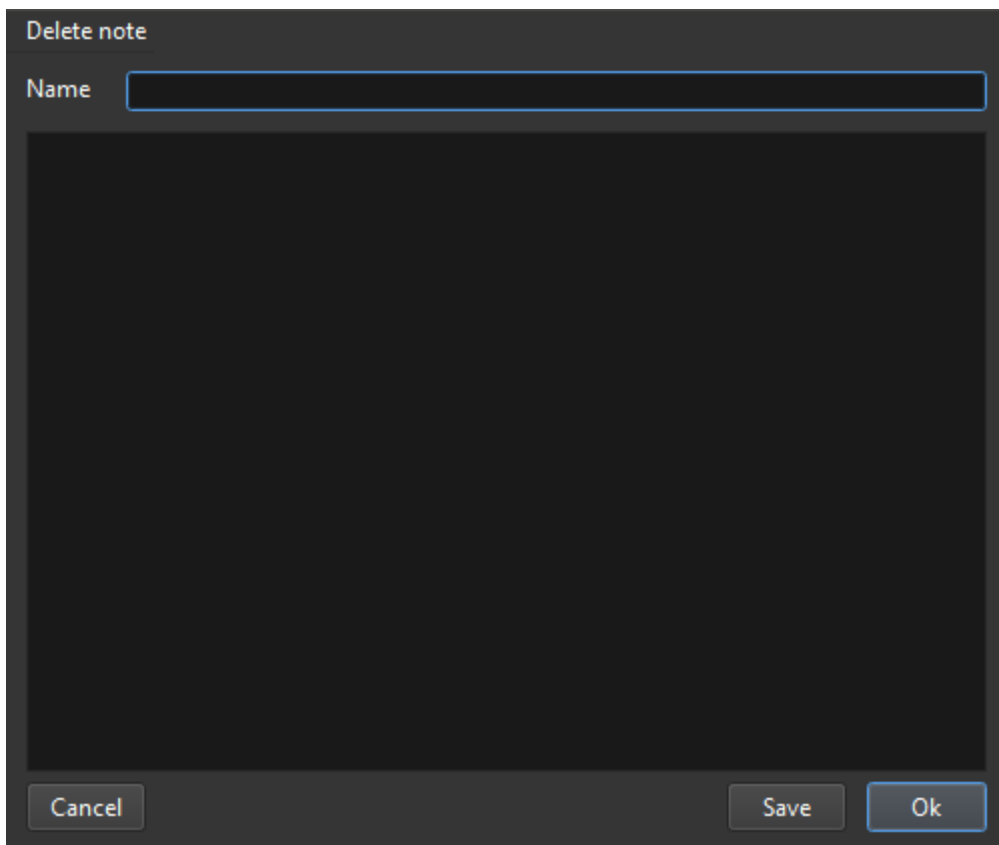

AZNotes is a note taking application, designed for minimalists. It has a simple yet elegant design.

Create a new note:

To create a new note, Click on the “New Note” button

which will open an edit section where you can edit the note:

Save and Ok buttons:

The save button saves the current note and does not exit, allowing you to edit the note without interruptions. Whereas Ok button saves and quits.

## Light and dark modes:

There are two different Themes, Dark mode is default. To switch to light mode click on the Menu button in the menu-bar, and check the “Light Theme” option. Changes will be applied when you restart the application.
